

BS AU 242:2021 Repair Template

- Made from the same type of acetate as the current template but thicker (approx. 0.5mm) to make it stiffer
- 40cm wide to measure the A Zone. Centre line marked to aid positioning on the windscreen. 150mm indicated for crack length that can be repaired
- 20mm and 40mm holes cut out. (printed if cut-out is prohibitive to production costs)
- QR Code directing to the Esprit website (example from Google for this mock-up)
- Windscreen diagram simplified to Black and red to minimise colours needed and to “brand” it Esprit
