

# WK6 Non-Scratch Trimming Blades

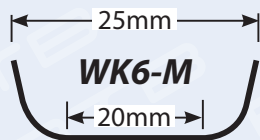

## NON-SCRATCH PINCHWELD TRIMMING BLADE SET

#WK6-SET

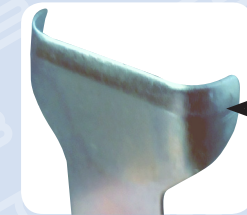

Use in **WK7** or **WK7L** manual handles or in BTB's air or battery power tools.

## WINGED BLADE PROFILES

- » *Winged blades eliminate scratching vehicle paintwork, avoiding the time/expense of painting / re-priming due to damage caused using other tools*
- » *Blades leave a thin, even layer of adhesive on the pinchweld for re-bonding of new glass*
- » *Great for removing urethane embedded with fragments of shattered tempered glass*

Underside radius grind extends up the vertical wings to avoid scratching paintwork
